**SERCOMM CORPORATION AND
SUBSIDIARIES
CONSOLIDATED FINANCIAL STATEMENTS AND
REVIEW REPORT OF INDEPENDENT
ACCOUNTANTS
MARCH 31, 2020 AND 2019**

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

REVIEW REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Sercomm Corporation

Introduction

We have reviewed the accompanying consolidated balance sheets of Sercomm Corporation and subsidiaries (the “Group”) as at March 31, 2020 and 2019, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the three-month periods then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and International Accounting Standard 34, “Interim Financial Reporting” as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the following paragraph, we conducted our reviews in accordance with the Statement of Auditing Standards No. 65 “Review of Financial Information Performed by the Independent Auditor of the Entity” in the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

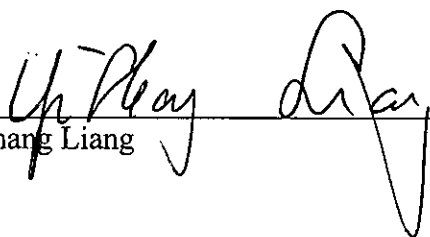

Basis for Qualified Conclusion

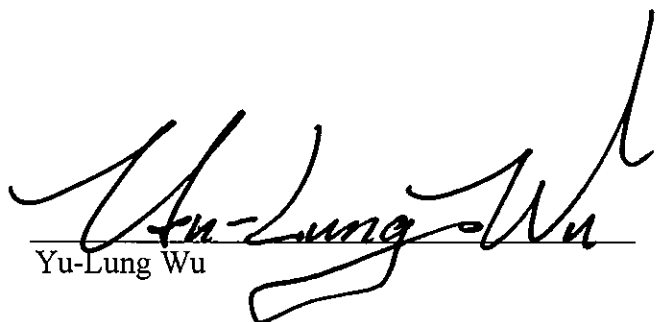

As explained in Notes 4(3) and 6(8), the financial statements of certain insignificant consolidated subsidiaries and investments accounted for using equity method were not reviewed by independent accountants. Those statements reflect total assets (including investments accounted for using equity method) of NT\$1,044,606 thousand and NT\$630,029 thousand, constituting 4.3% and 2.8% of the consolidated total assets, and total liabilities of NT\$409,497 thousand and NT\$66,542 thousand, constituting 2.4% and 0.4% of the consolidated total liabilities as at March 31, 2020 and 2019, and total

comprehensive income (loss) of (NT\$57,757) thousand and (NT\$36,200) thousand, constituting 82.8% and (10.3%) of the consolidated total comprehensive income (loss) for the three-month periods then ended.

Qualified Conclusion

Except for the adjustments to the consolidated financial statements, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries and investments accounted for using equity method been reviewed by independent accountants, that we might have become aware of had it not been for the situation described above, based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at March 31, 2020 and 2019, and of its consolidated financial performance and its consolidated cash flows for the three-month periods then ended in accordance with “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and International Accounting Standard 34, “Interim Financial Reporting” as endorsed by the Financial Supervisory Commission.

Yi-Chang Liang

Yu-Lung Wu

For and on behalf of PricewaterhouseCoopers, Taiwan

May 6, 2020

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the review of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and review report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

Cash and cash equivalents at end of period		\$ 7,197,796	\$ 5,781,233

The accompanying notes are an integral part of these consolidated financial statements.

SERCOMM CORPORATION AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
THREE-MONTH PERIODS ENDED MARCH 31, 2020 AND 2019

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)
(Unaudited)

1. HISTORY AND ORGANISATION

Sercomm Corporation (the “Company”) was incorporated on July 29, 1992. The Company and its subsidiaries (collectively referred herein as the “Group”) are primarily engaged in research and development, manufacturing and sales of networking communication software and equipment.

The common stocks of the Company were traded on the Taipei Exchange since May 1999 and listed on the Taiwan Stock Exchange since December 2007.

2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These consolidated financial statements were reported to the Board of Directors on May 6, 2020.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS”) as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC effective from 2020 are as follows:

<u>New and revised Standards, Interpretations and Amendments</u>	<u>Effective date issued by International Accounting Standards Board</u>
Amendments to IAS 1 and IAS 8, ‘Disclosure Initiative-Definition of Material’	January 1, 2020
Amendments to IFRS 3, ‘Definition of a business’	January 1, 2020
Amendments to IFRS 9, IAS 39 and IFRS 7, ‘Interest rate benchmark reform’	January 1, 2020

A. Amendments to IAS 1 and IAS 8, ‘Disclosure Initiative-Definition of Material’

The amendments clarify the definition of material that information is material if omitting, misstating or obscuring it could reasonably be expected to influence the decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.

B. Amendments to IFRS 3, ‘Definition of a business’

The amendments clarify the definition of a business that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together; narrow the definitions of a business and of outputs by focusing on goods and services provided to customers and by removing the reference to an ability to reduce costs. Remove the

assessment of whether market participants are capable of replacing any missing inputs or processes and continuing to produce outputs. Besides, add an optional concentration test that permits a simplified assessment of whether an acquired set of activities and assets is not a business.

C. Amendments to IFRS 9, IAS 39 and IFRS 7, 'Interest rate benchmark reform'

The reliefs relate to hedge accounting and have the effect that IBOR reform should not generally cause hedge accounting to terminate. Also, the amendment requires disclosure about how the entity is impacted by IBOR reform and is managing the transition process.

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

None.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

<u>New and revised Standards, Interpretations and Amendments</u>	<u>Effective date issued by International Accounting Standards Board</u>
Amendments to IFRS 10 and IAS '28, Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards Board
IFRS 17, 'Insurance contracts'	January 1, 2021
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2022

A. Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'

The amendments resolve a current inconsistency between IFRS 10 and IAS 28. The gain or loss resulting from a transaction that involves sales or contribution of assets between an investor and its associates or joint ventures is recognised either in full or partially depending on the nature of the assets sold or contributed:

- (a) If sales or contributions of assets constitute a 'business', the full gain or loss is recognised;
- (b) If sales or contributions of assets do not constitute a 'business', the partial gain or loss is recognised only to the extent of unrelated investors' interests in the associate or joint venture.

B. IFRS 17, 'Insurance contracts'

IFRS 17 'Insurance contracts' replaces IFRS 4 and establishes principles for the recognition, measurement, presentation and disclosure of insurance contracts issued. The standard applies to insurance contracts (including reinsurance contracts) issued, to reinsurance contracts held and to investment contracts with discretionary participation features issued, provided the entity also issues insurance contracts. Embedded derivatives, distinct investment components and distinct performance obligations shall be separated from the insurance contracts. An entity shall, at initial

recognition, disaggregate a portfolio into three groups of contracts: onerous, no significant risk of becoming onerous, and remaining contracts. IFRS 17 requires a current measurement model, where estimates are remeasured in each reporting period. The measurement is based on the building blocks of discounted, probability-weighted cash flows, a risk adjustment and a contractual service margin ('CSM') representing the unearned profit of the contract. An entity may apply a modified simplified measurement approach (the premium allocation approach) to some insurance contracts. An entity recognises the profit from a group of insurance contracts over the period the entity provides insurance coverage, and as the entity is released from risk. If a group of contracts is or becomes loss-making, an entity recognises the loss immediately. Entities are required to present separately insurance revenue, insurance service expenses and insurance finance income or expenses and to disclose information about amounts, judgements and risks arising from insurance contracts.

C. Amendments to IAS 1, 'Classification of liabilities as current or non-current'

The amendments clarify that classification of liabilities depends on the rights that exist at the end of the reporting period. An entity shall classify a liability as current when it does not have a right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period. Also, the amendments define 'settlement' as the extinguishment of a liability with cash, other economic resources or an entity's own equity instruments.

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers", and the International Accounting Standard 34, 'Interim financial reporting' as endorsed by the FSC.

(2) Basis of preparation

A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:

- (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
- (b) Financial assets and liabilities at fair value through other comprehensive income.
- (c) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.

B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical

accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

A. Basis for preparation of consolidated financial statements:

- (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
- (b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
- (d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.

B. Subsidiaries included in the consolidated financial statements:

Name of Investment Company	Name of subsidiary	Main business activities	Ownership (%)			Remark
			March 31, 2020	December 31, 2019	March 31, 2019

Note 1: Sercomm Philippines Inc. was set up in the first quarter of 2019, Sercomm Britain Limited was set up in the second quarter of 2019, Sernet Technology Mexico, Refinement Property Holding Inc. and Servercom (India) Private Limited were set up in the fourth quarter of 2019.

Note 2: The subsidiary was liquidated and the registration was changed in March 2020.

Note 3: The subsidiary was controlled by the Group so it was included in the consolidated financial statements.

Note 4: The financial statements of the entity as of and for the three-month periods ended March 31, 2020 and 2019 were not reviewed by the independent accountants as the entity did not meet the definition of a significant subsidiary.

C. Subsidiaries not included in the consolidated financial statements: None.

D. Adjustments for subsidiaries with different balance sheet dates: None.

E. Significant restrictions: None.

F. Subsidiaries that have non-controlling interests that are material to the Group: None.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured by using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars, which is the Company's functional and the Group's presentation currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All other foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income.

B. Translation of foreign operations

The operating results and financial position of all the Group entities and associates that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
- (b) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- (c) All resulting exchange differences are recognised in other comprehensive income.

(5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
- (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
 - (b) Assets held mainly for trading purposes;
 - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
 - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
- (a) Liabilities that are expected to be settled within the normal operating cycle;
 - (b) Liabilities arising mainly from trading activities;
 - (c) Liabilities that are to be settled within twelve months from the balance sheet date;
 - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value (including time deposits with maturity within 12 months).

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.
- D. The Group recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:

- (a) The objective of the Group's business model is achieved both by collecting contractual cash flows and selling financial assets; and
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:
- (a) The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.
 - (b) Except for the recognition of impairment loss, interest income and gain or loss on foreign exchange which are recognised in profit or loss, the changes in fair value of debt instruments are taken through other comprehensive income. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss.

(9) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.
- C. The Group's operating pattern of accounts receivable that are expected to be factored is for the purpose of selling, and the accounts receivable are subsequently measured at fair value, with any changes in fair value recognised in profit or loss.

(10) Impairment of financial assets

For debt instruments measured at fair value through other comprehensive income and financial assets at amortised cost including accounts receivable or contract assets that have a significant financing component, lease receivables, loan commitments and financial guarantee contracts, at each reporting date, the Group recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognizes the impairment provision for lifetime ECLs.

(11) Derecognition of financial assets

The Group derecognizes a financial asset when one of the following conditions is met:

- A. The contractual rights to receive the cash flows from the financial asset expire.

- B. The contractual rights to receive cash flows of the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows of the financial asset have been transferred; however, the Group has not retained control of the financial asset.

(12) Leasing arrangements (lessor)-operating leases

Lease income from an operating lease (net of any incentives given to the lessee) is recognised in profit or loss on a straight-line basis over the lease term.

(13) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(14) Investments accounted for using equity method / associates

- A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognised at cost.
- B. The Group's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- C. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Group's ownership percentage of the associate, the Group recognizes the Group's share of change in equity of the associate in 'capital surplus' in proportion to its ownership.
- D. Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.

(15) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will

flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change.

The estimated useful lives of property, plant and equipment are as follows:

Buildings and structures	36 ~ 56 years
Machinery and equipment	4 ~ 10 years
Research equipment	3 ~ 6 years
Office and other equipment	2 ~ 6 years
Leasehold improvements	10 years

(16) Leasing arrangements (lessee) - right-of-use assets/ lease liabilities

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the interest rate implicit in the lease.

Lease payments are comprised of the following:

- (a) Fixed payments, less any lease incentives receivable; and
- (b) The exercise price of a purchase option, if the lessee is reasonably certain to exercise that option.

The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:

- (a) The amount of the initial measurement of lease liability; and
- (b) Any lease payments made at or before the commencement date.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term.

When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

D. For lease modifications that decrease the scope of the lease, the lessee shall decrease the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognise the difference between remeasured lease liability in profit or loss.

(17) Intangible assets

A. Computer software and certification cost

Computer software and certification cost are stated at cost and amortized on a straight-line basis over its estimated useful life of 2 to 5 years.

B. Internally generated intangible assets-research and development expenditures

(a) Research expenditures are recognised as an expense as incurred.

(b) Development expenditures that do not meet the following criteria are recognised as expenses as incurred, but are recognised as intangible assets when the following criteria are met:

- i. It is technically feasible to complete the intangible asset so that it will be available for use or sale;
- ii. An entity intends to complete the intangible asset and use or sell it;
- iii. An entity has the ability to use or sell the intangible asset;
- iv. It can be demonstrated how the intangible asset will generate probable future economic benefits;
- v. Adequate technical, financial and other resources to complete the development and to use or sell the intangible asset are available; and
- vi. The expenditure attributable to the intangible asset during its development can be reliably measured.

(c) Upon being available for use, internally generated intangible assets are amortised on a straight-line basis over their estimated useful life of 5 years.

C. Goodwill

Goodwill arises in a business combination accounted for by applying the acquisition method.

D. Trademark right

Trademark right is stated at cost and amortized on a straight-line basis over its estimated useful life of 5 years.

(18) Impairment of non-financial assets

A. The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognised.

- B. The recoverable amounts of goodwill, intangible assets with an indefinite useful life and intangible assets that have not yet been available for use are evaluated periodically. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment loss of goodwill previously recognised in profit or loss shall not be reversed in the following years.
- C. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units, or groups of cash-generating units, that is/are expected to benefit from the synergies of the business combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

(19) Borrowings

- A. Borrowings comprise short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.
- B. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

(20) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial. The Group initially measures notes and accounts payable at fair value.

(21) Financial liabilities at fair value through profit or loss

- A. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorised as financial liabilities held for trading unless they are designated as hedges.
- B. At initial recognition, the Group measures the financial liabilities at fair value. All related transaction costs are recognised in profit or loss. The Group subsequently measures these financial liabilities at fair value with any gain or loss recognised in profit or loss.
- C. If the credit risk results in fair value changes in financial liabilities designated as at fair value through profit or loss, they are recognised in other comprehensive income in the circumstances other than avoiding accounting mismatch or recognising in profit or loss for loan commitments or financial guarantee contracts.

(22) Bonds payable

Ordinary corporate bonds issued by the Group are initially recognised at fair value less transaction costs. Any difference between the proceeds (net of transaction costs) and the redemption value is presented as an addition to or deduction from bonds payable, which is amortised to profit or loss over the period of bond circulation using the effective interest method as an adjustment to ‘finance costs’.

(23) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expires.

(24) Non-hedging and embedded derivatives

A. Non-hedging derivatives are initially recognised at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognised in profit or loss.

B. Under the financial assets, the hybrid contracts embedded with derivatives are initially recognised as financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and financial assets at amortised cost based on the contract terms.

C. Under the non-financial assets, whether the hybrid contracts embedded with derivatives are accounted for separately at initial recognition is based on whether the economic characteristics and risks of an embedded derivative are closely related in the host contract. When they are closely related, the entire hybrid instrument is accounted for by its nature in accordance with the applicable standard. When they are not closely related, the derivative is accounted for differently from the host contract as derivative while the host contract is accounted for by its nature in accordance with the applicable standard. Alternatively, the entire hybrid instrument is designated as financial liabilities at fair value through profit or loss upon initial recognition.

(25) Hedge accounting

A. At the inception of the hedging relationship, there is formal designation and documentation of the hedging relationship and the Group’s risk management objective and strategy for undertaking the hedge. That documentation shall include identification of the hedging instrument, the hedged item, the nature of the risk being hedged and how the Group will assess whether the hedging relationship meets the hedge effectiveness requirements.

B. The Group designates the hedging relationship as follows:

(a) Fair value hedge: a hedge of the exposure to changes in fair value of a recognised asset or liability or an unrecognised firm commitment.

(b) Cash flow hedge: a hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction.

C. Fair value hedges

- (a) The gain or loss on the hedging instrument is recognised in profit or loss. Whereas the gain or loss is recognised in other comprehensive income if the hedging instrument hedges an equity instrument for which the Group has elected to present changes in fair value in other comprehensive income.
- (b) The hedging gain or loss on the hedged item shall adjust the carrying amount of the hedged item and is recognised in profit or loss. However, if the hedged item is an equity instrument for which the Group has elected to present changes in fair value in other comprehensive income, those amounts shall remain in other comprehensive income. When a hedged item is an unrecognised firm commitment, the subsequent cumulative change in the fair value of the hedged item is recognised as an asset or liability with a corresponding gain or loss recognised in profit or loss.

D. Cash flow hedges

- (a) The cash flow hedge reserve associated with the hedged item is adjusted to the lower of the following (in absolute amounts):
 - i. the cumulative gain or loss on the hedging instrument from inception of the hedge; and
 - ii. the cumulative change in fair value of the hedged item from inception of the hedge.
- (b) The effective portion of the gain or loss on the hedging instrument is recognised in other comprehensive income. The gain or loss on the hedging instrument relating to the ineffective portion is recognised in profit or loss.
- (c) The amount that has been accumulated in the cash flow hedge reserve in accordance with item (a) is accounted for as follows:
 - i. If a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, or a hedged forecast transaction for a non-financial asset or non-financial liability becomes a firm commitment for which fair value hedge accounting is applied, the Group shall remove that amount from the cash flow hedge reserve and include it directly in the initial cost or other carrying amount of the asset or liability.
 - ii. For cash flow hedges other than those covered by item i. above, that amount shall be reclassified from the cash flow hedge reserve to profit or loss as a reclassification adjustment in the same period or periods during which the hedged expected future cash flows affect profit or loss.
 - iii. If that amount is a loss and the Group expects that all or a portion of that loss will not be recovered in one or more future periods, it shall immediately reclassify the amount that is not expected to be recovered into profit or loss as a reclassification adjustment.
- (d) When the hedging instrument expires, or is sold, terminated, exercised or when the hedging relationship ceases to meet the qualifying criteria, if the forecast transaction is still expected to occur, the amount that has been accumulated in the cash flow hedge reserve shall remain in the cash flow hedge reserve until the forecast transaction occurs; if the forecast transaction is no longer expected to occur, the amount shall be immediately reclassified from the cash flow hedge reserve to profit or loss as a reclassification adjustment.

(26) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognised as interest expense. Provisions are not recognised for future operating losses.

(27) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Group uses interest rates of government bonds (at the balance sheet date) instead.
- ii. Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- iii. Past service costs are recognised immediately in profit or loss.
- iv. Pension cost for the interim period is calculated on a year-to-date basis by using the pension cost rate derived from the actuarial valuation at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. And, the related information is disclosed accordingly.

C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

If employee compensation is paid by shares, the Group calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(28) Employee share-based payment

A. For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognised is based on the number of equity instruments that eventually vest.

B. Restricted stocks:

(a) Restricted stocks issued to employees are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period.

(b) For restricted stocks where employees have to pay to acquire those stocks, if employees resign during the vesting period, they must return the stocks to the Group and the Group must refund their payments on the stocks, the Group recognises the payments from the employees who are expected to resign during the vesting period as liabilities at the grant date, and recognises the payments from the employees who are expected to be eventually vested with the stocks in 'capital surplus – restricted employee right.'

(29) Income tax

A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.

B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.

- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.
- D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.
- F. A deferred tax asset shall be recognised for the carryforward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilised.
- G. The interim period income tax expense is recognised based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.
- H. If a change in tax rate is enacted or substantively enacted in an interim period, the Group recognises the effect of the change immediately in the interim period in which the change occurs. The effect of the change on items recognised outside profit or loss is recognised in other comprehensive income or equity while the effect of the change on items recognised in profit or loss is recognised in profit or loss.

(30) Share capital

- A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is

deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

(31) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are resolved by the Company's shareholders. Cash dividends are recorded as liabilities.

(32) Revenue recognition

A. Revenue is recognised when control of the products has transferred, and the wholesaler has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the wholesaler's acceptance of the products.

The Group uses five steps to determine the revenue recognition:

Step 1: Identify the contract.

Step 2: Identify the obligation in contract.

Step 3: Determine transaction price.

Step 4: Distribute transaction price to each obligation in contract.

Step 5: Recognize revenue when those obligations are satisfied.

B. Revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. A refund liability is recognised for expected payable to customers in relation to sales made until the end of the reporting period.

C. The Group's obligation to provide a repair for faulty products under the standard warranty terms is recognised as a provision.

D. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(33) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Group's chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) Critical judgements in applying the Group's accounting policies

None.

(2) Critical accounting estimates and assumptions

Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation. For the explanation of evaluation of inventories, please refer to Note 6.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	March 31, 2020	December 31, 2019	March 31, 2019
Cash on hand and revolving funds	\$ 2,718	\$ 2,330	\$ 4,303
Checking accounts and demand deposits	4,067,093	3,871,856	4,039,780
Time deposits	3,127,985	3,400,529	1,737,150
	<u>\$ 7,197,796</u>	<u>\$ 7,274,715</u>	<u>\$ 5,781,233</u>

A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. The Group has no cash and cash equivalents pledged to others.

(2) Financial assets and liabilities at fair value through profit or loss

Assets	March 31, 2020	December 31, 2019	March 31, 2019
Current items:			
Financial assets mandatorily measured at fair value through profit or loss			
Listed stocks	\$ -	\$ 23	\$ 517,751
Forward foreign exchange contract	516	12,385	-
Cross currency swap	-	-	3,640
Valuation adjustment	-	5	(37,553)
	<u>\$ 516</u>	<u>\$ 12,413</u>	<u>\$ 483,838</u>
Non-current items:			
Financial assets mandatorily measured at fair value through profit or loss			
Convertible corporate bonds	\$ 4,169	\$ 4,169	\$ 27,834
Unlisted stocks	33,088	33,088	33,188
Valuation adjustment	(8,871)	(7,996)	(19,125)
	<u>\$ 28,386</u>	<u>\$ 29,261</u>	<u>\$ 41,897</u>

Liabilities	March 31, 2020	December 31, 2019	March 31, 2019
Current items			
Financial liabilities held for trading			
Cross currency swap	\$ 1,173	\$ 1,742	\$ -
Forward foreign exchange contract	5,712	-	2,647
	<u>\$ 6,885</u>	<u>\$ 1,742</u>	<u>\$ 2,647</u>

A. Amounts recognised in profit or loss in relation to financial assets and liabilities at fair value through profit or loss are listed below:

	Three-month period ended March 31,	
	2020	2019
Financial assets mandatorily measured at fair value through profit or loss		
Equity instruments	(\$ 1,008)	\$ 51,370
Financial assets mandatory measured at fair value through profit or loss/ financial liabilities held for trading		
Cross currency swap	1,066	11,027
Forward foreign exchange contract	(16,654)	(6,473)
	<u>(\$ 16,596)</u>	<u>\$ 55,924</u>

B. The Group entered into forward foreign exchange contracts and cross currency swap contracts to sell and buy various currency to hedge exchange rate risk of export proceeds and interest rate risk. However, these forward foreign exchange contracts are not accounted for under hedge accounting. The summary of contracts not past due and entered into by the Group are as follows:

	March 31, 2020			
	Currency	Contract period	Contract amount	
Forward foreign exchange contracts	Buy USD/Sell RUB	2020/03~2020/04	USD	4,000 thousand
Forward foreign exchange contracts	Buy USD/Sell RMB	2019/12~2020/07	USD	50,000 thousand
Cross currency swap	Buy USD/Sell NTD	2020/02~2020/05	USD	5,000 thousand
	December 31, 2019			
	Currency	Contract period	Contract amount	
Forward foreign exchange contracts	Buy USD/Sell RUB	2019/12~2020/01	USD	4,000 thousand
Forward foreign exchange contracts	Buy USD/Sell RMB	2019/12~2020/07	USD	50,000 thousand
Cross currency swap	Buy USD/Sell NTD	2019/11~2020/02	USD	5,000 thousand
	March 31, 2019			
	Currency	Contract period	Contract amount	
Forward foreign exchange contracts	Buy USD/Sell RUB	2019/02~2019/05	USD	6,000 thousand
Cross currency swap	Buy USD/Sell NTD	2019/01~2019/04	USD	25,000 thousand

- C. The Group's financial assets at fair value through profit or loss were not pledged to others as collateral.
- D. Information relating to fair value of financial assets at fair value through profit or loss is provided in Note 12(3).

(3) Financial assets at fair value through other comprehensive income

	March 31, 2020	December 31, 2019	March 31, 2019
Current items:			
Designation of equity instruments			
Listed stocks	\$ 166,484	\$ 166,484	\$ 295,716
Valuation adjustment	(15,568)	10,103	(30,076)
	<u>\$ 150,916</u>	<u>\$ 176,587</u>	<u>\$ 265,640</u>
Non-current items:			
Designation of equity instruments			
Unlisted stocks	\$ 131,808	\$ 131,808	\$ 70,819
Valuation adjustment	(70,032)	(15,570)	(23,281)
	<u>\$ 61,776</u>	<u>\$ 116,238</u>	<u>\$ 47,538</u>

- A. The Group has elected to classify investments that are considered to be strategic investments or steady dividend income as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to \$212,692, \$292,825 and \$313,178 as at March 31, 2020, December 31, 2019 and March 31, 2019, respectively.
- B. Amounts recognised in profit or loss and other comprehensive income in relation to the equity instruments at fair value through other comprehensive income are listed below:

	Three-month period ended March 31,	
	2020	2019
Fair value change recognized in other comprehensive income	(\$ 80,133)	\$ 4,049

- C. The Group's financial assets at fair value through profit or loss were not pledged to others as collateral.
- D. Information relating to fair value of financial assets at fair value through other comprehensive income is provided in Note 12(3).

(4) Hedging financial assets and liabilities

	March 31, 2020	
	Assets	Liabilities
Cash flow hedges:		
<u>Exchange rate risk</u>		
Forward foreign exchange contract	\$ 61,726	\$ -

	December 31, 2019	
	Assets	Liabilities
Cash flow hedges:		
<u>Exchange rate risk</u>		
Forward foreign exchange contract	\$ 83,186	\$ -

	March 31, 2019	
	Assets	Liabilities
Cash flow hedges:		
<u>Exchange rate risk</u>		
Forward foreign exchange contract	\$ 35,163	\$ -

A. Hedge accounting is applied to remove the accounting inconsistency between the hedging instrument and the hedged item. As the Group's EUR denominated accounts receivable and USD denominated accounts payable are exposed to the impact of variable exchange rate, the Group uses forward foreign exchange contract of exposed risk with 1:1 hedge ratio to control the exchange rate risk under their acceptable range based on the Group's risk management policies.

B. Transaction information associated with the Group adopting hedge accounting is as follows:

March 31, 2020				
Hedged items	Derivative instruments designated as hedges	Fair value of instruments designated as hedges	Period of anticipated cash flow	Prior of gain (loss) expected to be recognized in statements of comprehensive income
Expected transaction	Forward foreign exchange contracts	\$ 61,726	2020/04~2020/09	2020/04~2020/09

December 31, 2019				
Hedged items	Derivative instruments designated as hedges	Fair value of instruments designated as hedges	Period of anticipated cash flow	Prior of gain (loss) expected to be recognized in statements of comprehensive income
Expected transaction	Forward foreign exchange contracts	\$ 83,186	2020/01~2020/06	2020/01~2020/06

March 31, 2019				
Hedged items	Derivative instruments designated as hedges	Fair value of instruments designated as hedges	Period of anticipated cash flow	Prior of gain (loss) expected to be recognized in statements of comprehensive income
Expected transaction	Forward foreign exchange contracts	\$ 35,163	2019/04~2019/06	2019/04~2019/06

C. Information of contract not past due are as follows:

	<u>March 31, 2020</u>		
	<u>Currency</u>	<u>Contract period</u>	<u>Contract amount</u>
Forward foreign exchange contracts	Sell EUR / Buy NTD	2019/08~2020/09	EUR 27,000 thousand
	<u>March 31, 2019</u>		
	<u>Currency</u>	<u>Contract period</u>	<u>Contract amount</u>
Forward foreign exchange contracts	Sell EUR / Buy NTD	2019/08~2020/06	EUR 42,000 thousand
	<u>March 31, 2019</u>		
	<u>Currency</u>	<u>Contract period</u>	<u>Contract amount</u>
Forward foreign exchange contracts	Sell EUR / Buy USD	2018/09~2019/06	EUR 15,000 thousand

D. Cash flow hedge:

	<u>2020</u>	<u>2019</u>
<u>Other equity – cash flow hedge reserve</u>		
At January 1	\$ 66,548	\$ 33,316
Losses on hedge effectiveness - amount recognised in other comprehensive income	23,885	16,366
Reclassified to profit or loss as the hedged item has affected profit or loss	(41,052)	(19,362)
Adjusted inventories as the hedged item has not been sold	-	(1,306)
The sold hedged item adjusted to inventories during the period	-	(883)
At March 31	<u>\$ 49,381</u>	<u>\$ 28,131</u>

To hedge exposed exchange rate risk arising from forecast sales revenue or/and forecast purchase of inventory, the Group entered into a forward forecast sale agreement of EUR or/and a forward forecast purchase agreement of USD, and the hedge ratio is 1:1. The effective portion with respect to the changes in the fair value of the hedging instruments is deferred to recognise in the cash flow hedge reserve, which is under other comprehensive income, and will be directly included in the sales revenue when the hedged items are subsequently recognised in accounts receivable; and will be directly included in the inventory when the hedge items are subsequently recognised in inventory.

E. Information relating to credit risk of hedging financial assets and liabilities is provided in Note 12(3).

(5) Notes and accounts receivable

	<u>March 31, 2020</u>	<u>December 31, 2019</u>	<u>March 31, 2019</u>
Notes receivable	<u>\$ 193,748</u>	<u>\$ 632,430</u>	<u>\$ 1,445,472</u>
Accounts receivable	\$ 4,687,485	\$ 5,108,264	\$ 3,724,788
Less: Allowance for loss	(3,093)	(3,124)	(7,022)
	<u>\$ 4,684,392</u>	<u>\$ 5,105,140</u>	<u>3,717,766</u>

A. None of the Group's notes receivable are overdue. For the ageing analysis of the accounts receivable, please refer to Note 12(2).

The Group grants credit term to their clients from 30 days to 210 days after the delivery date. Ageing analysis is conducted on the basis of the number of days overdue. Please refer to Note 12 for disclosures of credit risk and information on movement of impairment and analysis of accounts receivable.

B. As of March 31, 2020, December 31, 2019 and March 31, 2019, the balances of receivables (including notes receivable) were all from contracts with customers. And as of January 1, 2019, the total balance of receivables from contracts with customers amounted to \$6,553,618 and loss allowance amounted to \$12,662.

C. As of March 31, 2020, December 31, 2019 and March 31, 2019, notes receivable were endorsed and transferred to suppliers as payment, which had not reached maturity and were not derecognised, amounting to \$33,581, \$60,707 and \$139,189 (RMB 7,873 thousand, RMB 14,047 thousand and RMB 30,345 thousand, the approximate fair value), respectively. If the issuer or acceptor of a note refuses to pay at maturity, the Group has the obligation to pay as the endorser.

D. As of March 31, 2020, December 31, 2019 and March 31, 2019, the amount of endorsed notes pledged as collateral for the purpose of issuing banker's acceptances was \$0, \$0 and \$391,446, respectively.

(6) Transfer of financial assets

A. The Group entered into a factoring agreement with financial institutions to sell its accounts receivable. Under the agreement, the Group prepared an offering document of purchase. The offering document states that the factoring is without the right of recourse, and the Group is not obligated to bear the default risk of the transferred accounts receivable, but is liable for the losses incurred on any business dispute. The Group does not have any continuing involvement in the transferred accounts receivable, thus, the Group meets the condition of financial asset derecognition. The derecognised accounts receivable are summarised as follows:

<u>March 31, 2020</u>						
<u>Purchaser of accounts receivable</u>	<u>Accounts receivable transferred</u>	<u>Amount derecognised</u>	<u>Facilities</u>	<u>Amount advanced</u>	<u>Amount available for advance</u>	<u>Interest rate range of amount advanced</u>
DBS Bank (Taiwan) Ltd.	\$ 1,039,224 (USD34,350,000)	\$ 1,039,224	USD64,688,000	\$ 644,696 (USD 21,309,000)	\$ 394,528	1.69%~3.01%
Taishin International Bank	17,251 (USD 570,000)	17,251	USD 1,000,000	-	17,251	-
	<u>\$ 1,056,475</u>	<u>\$ 1,056,475</u>		<u>\$ 644,696</u>	<u>\$ 411,779</u>	
<u>December 31, 2019</u>						
<u>Purchaser of accounts receivable</u>	<u>Accounts receivable transferred</u>	<u>Amount derecognised</u>	<u>Facilities</u>	<u>Amount advanced</u>	<u>Amount available for advance</u>	<u>Interest rate range of amount advanced</u>

B. As of March 31, 2020, December 31, 2019 and March 31, 2019, the price that arose from factoring of accounts receivable but not yet received from banks in advance amounted to \$411,779, \$1,468,820 and \$214,056, respectively, which were reclassified as other receivables.

C. Information of the pledged assets due of above factoring agreements are provided in Note 9.

D. Certain notes receivable that were endorsed and transferred to other parties meet the requirements of derecognition as financial assets. The Group retains the obligation to pay as endorser only when the issuer or acceptor of a note refuses to pay at maturity; however, the credit rating of issuers or acceptors of the aforementioned notes is very high. Notes receivable endorsed and transferred to other parties which were derecognised before maturity are summarised as follows:

	March 31, 2020	December 31, 2019	March 31, 2019
Amount derecognized	\$ 24,479	\$ -	\$ 177,371
	(RMB 5,739,000)	(RMB 0)	(RMB38,669,000)

(7) Inventories

	March 31, 2020	December 31, 2019	March 31, 2019
Raw materials	\$ 3,098,751	\$ 2,589,618	\$ 2,002,960
Work in progress	1,116,196	661,354	1,005,781
Finished goods	1,864,784	2,549,417	2,218,241
Inventory in transit	128,954	96,834	35,788
	<u>\$ 6,208,685</u>	<u>\$ 5,897,223</u>	<u>\$ 5,262,770</u>

The cost of inventories recognised as expense for the period:

	Three-month period ended March 31,	
	2020	2019
Cost of goods sold	\$ 5,848,199	\$ 5,270,064
(Gain on reversal of) loss on decline in market value	(21,234)	49,937
	<u>\$ 5,826,965</u>	<u>\$ 5,320,001</u>

For the three-month period ended March 31, 2020, the Group reversed a previous inventory write-down and accounted for as reduction of cost of goods sold because the inventories were subsequently disposed.

(8) Investments accounted for using equity method

	2020	2019
At January 1	\$ 5,865	\$ 9,251
Share of profit or loss of investments accounted for using equity method	(1,763)	487
Effect of exchange rate changes	(85)	(158)
At March 31	<u>\$ 4,017</u>	<u>\$ 9,580</u>

A. The Group acquired 30% of the shares of the associated company, MECShare GmbH, whose principal place of business is in Germany, its net (loss) gain for the three-month period ended March 31, 2020 and 2019 were (\$5,877) and \$1,624, respectively.

B. The aforementioned investments accounted for using equity method were measured based on the associate's financial statements which were not reviewed by the independent accountants.

A. The Group leased some offices in Nankang Software Park through a capital lease, which were reclassified from leased assets to right-of-use assets on January 1, 2019. Please refer to Note 6(10) for details.

B. The Group has no property, plant and equipment that were pledged to others as collateral.

(10) Leasing arrangements - lessee

A. The Group leases various assets including land, land use right, buildings and equipment. Rental contracts are typically made for periods of 1 to 51 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing, transfer, sublease and share purposes.

B. Movements of right-of-use assets are as follows:

		2020			
		Land	Land use right	Buildings	Total
At January 1		\$ 94,163	\$ 82,115	\$ 427,433	\$ 603,711
	Additions	-	-	8,714	8,714
	Lease modifications	-	-	(10,787)	(10,787)
	Depreciation charge	-	(671)	(18,203)	(18,874)
	Net exchange differences	-	(1,064)	(2,937)	(4,001)
	At March 31	<u>\$ 94,163</u>	<u>\$ 80,380</u>	<u>\$ 404,220</u>	<u>\$ 578,763</u>

	2019

Bonds payable	\$ 2,300,000	\$ 2,300,000	\$ -
Less: Current portion	-	-	-
	<u>\$ 2,300,000</u>	<u>\$ 2,300,000</u>	<u>\$ -</u>

The terms of the first domestic unsecured corporate bonds issued in 2019 by the Company are as follows:

The Company issued the first domestic unsecured corporate bonds in 2019 amounting to \$2,300,000 based on the face value at an annual rate of 1.02%, as approved by the regulatory authority. The bonds

mature in 5 years from the issue date, the period is from July 26, 2019 to July 26, 2024. The bonds were listed on the Taipei Exchange on July 26, 2019 and will be redeemed in cash at face value at the maturity date.

(14) Pensions

A. Defined benefit plans

- (a) The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company and its domestic subsidiaries contribute monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company and its domestic subsidiaries would assess the balance in the aforementioned labor pension reserve account by March 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company and its domestic subsidiaries will make contributions for the deficit by next March.
- (b) The pension costs under the defined contribution pension plan of the Group for the three-month periods ended March 31, 2020 and 2019 were \$211 and \$241, respectively.
- (c) Expected contributions to the defined benefit pension plans of the Group for the year ended December 31, 2020 amount to \$5,302. As of March 31, 2020, the Company made contributions amounting to \$1,405.

B. Defined contribution plans

- (a) The Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
- (b) The Company's mainland China subsidiaries have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on certain percentage of employees' monthly salaries and wages. Other than the monthly contributions, the Group has no further obligations.
- (c) The Group's other foreign subsidiaries contributed pension to the relevant pension authorities under local regulations.
- (d) The pension costs under defined contribution pension plans of the Group for the three-month periods ended March 31, 2020 and 2019 were \$40,272 and \$52,895, respectively.

(15) Share-based payment

- A. Certain employees of the Group are entitled to share-based payment as part of their remunerations; services are provided by the employees in return for the equity instruments granted. These plans are accounted for as equity-settled share-based payment transactions.
- B. The arrangements of share-based payment for the three-month periods ended March 31, 2020 and 2019 are as follows:

<u>Type of arrangement</u>	<u>Grant date</u>	<u>Grant quantity (in thousand)</u>	<u>Contract period</u>	<u>Vesting condition</u>
Employee option plan	2015.5.27	10,000	10 years	(Note)

(Note) The Company issues new shares when employees exercise options. The granted period of option and exercisable ratio are as follows:

<u>Granted period of option</u>	<u>Accumulated ratio of exercisable stock option</u>
After 2 years	50%
After 3 years	75%
After 4 years	100%

- C. Details of the share-based payment arrangements are as follows:

	<u>2020</u>		<u>2019</u>	
	<u>No. of options (in thousand)</u>	<u>Weighted- average exercise price (in dollars)</u>	<u>No. of options (in thousand)</u>	<u>Weighted- average exercise price (in dollars)</u>
Options outstanding at January 1	<u>3,865</u>	\$ 49.70	<u>7,266</u>	\$ 51.60
Options outstanding at March 31	<u>3,865</u>	49.70	<u>7,266</u>	51.60
Options exercisable at March 31	<u>3,865</u>		<u>7,266</u>	

- D. As at March 31, 2020, December 31, 2019 and March 31, 2019, the range of exercise prices of stock options outstanding was NT\$49.7, NT\$49.7 and NT\$51.6 (in dollars), respectively; the weighted-average remaining contractual period was 1.625 years, 1.875 years and 2.625 years, respectively.
- E. The fair value of stock options granted on grant date is measured using the Black-Scholes option-pricing model. Relevant information is as follows:

<u>Type of arrangement</u>	<u>Grant date</u>	<u>Stock price (in dollars)</u>	<u>Exercise price (in dollars)</u>	<u>Expected price volatility</u>	<u>Expected option life</u>	<u>Expected dividends</u>	<u>Risk-free interest rate</u>	<u>Fair value per unit (in dollars)</u>
Employee stock options	2015.5.27							
-After 2 years		\$ 63.6	\$ 57.6	27.79%	6.0 years	4.79%	1.17%	\$ 9.15
-After 3 years		63.6	57.6	27.79%	6.5 years	4.79%	1.24%	9.26
-After 4 years		63.6	57.6	27.79%	7.0 years	4.79%	1.31%	9.34

Note 1: The exercise prices have been adjusted to reflect the change of outstanding shares (i.e. the shares issued for cash, the appropriation of earnings, issuance of new shares in connection with merger, or issuance of new shares of other companies) in accordance with the employee stock option plan.

Note 2: Expected price volatility is based on the historical average volatility on return of one year before valuation date. The source is from the Taiwan Stock Exchange.

Note 3: The expected life of the share options is based on historical date and current expectations.

F. Expenses incurred on share-based payment transactions are shown below:

	Three-month period ended March 31,	
	2020	2019
Compensation costs	\$ -	\$ 1,719

(16) Current provisions

	2020	2019

Additional provisions	65,748	84,178
Reversal during the period	(11,563)	(13,918)
Effect of exchange rate changes	(105)	32
At March 31	\$ 242,128	\$ 170,907

A provision for maintenance warranties is recognised for expected warranty claims on products sold, based on historical data of warranty and management's judgement. It is expected to be used during the coming year.

(17) Share capital

A. The Company's authorized capital was \$5,000,000, \$5,000,000 and \$2,500,000, as at March 31, 2020, December 31, 2019 and March 31, 2019, consisting of 500,000 thousand, 500,000 thousand and 250,000 thousand shares, respectively. Paid-in capital were \$2,490,548, \$2,490,548 and \$2,456,538, respectively, with par value of NT\$10. All proceeds from shares issued have been collected.

The change in the Company's share capital to \$5,000,000 was approved at their shareholders' meeting on June 12, 2019, which had been registered.

The number of common shares at the beginning and the end of the period is reconciled as below:

	2020 (in thousand)	2019 (in thousand)
At January 1	249,055	241,696
Treasury stocks transferred to employees	(938)	3,500
At March 31	248,117	245,196

B. In order to boost the Company's working capital, repay bank loans, enhance financial structure, purchase raw materials, and acquire funding needed for long-term development, the shareholders resolved in their meeting held on June 12, 2019 to raise capital by private offering of either common stock or domestic/foreign convertible bonds. Private offering of common stock shall not exceed 50,000 thousand shares, and private offering of domestic/foreign convertible bonds shall not exceed \$3,000,000 or USD \$100,000 thousand. Considering that the aforementioned capital increase was not processed within one year after the resolution date, the Company will no longer process the increase in capital as resolved by the Board of Directors on March 18, 2020.

C. Treasury stocks

(a) Reasons for the share reacquisition and movements in the number of the Company's treasury stocks are as follows: (December 31, 2019: None.)

Name of company holding	Reason for reacquisition	March 31, 2020	
		Number of shares (in thousand)	Carrying amount
The Company	To be reissued to employees	938	\$ 56,077

Name of company holding	Reason for reacquisition	March 31, 2019	
		Number of shares (in thousand)	Carrying amount
The company	To be reissued to employees	458	\$ 22,713

(b) Pursuant to the R.O.C. Securities and Exchange Act, the number of shares bought back as treasury stocks should not exceed 10% of the number of the Company's issued and outstanding shares and the amount of shares bought back should not exceed the sum of retained earnings, paid-in capital in excess of par value and realised capital surplus.

(c) Pursuant to the R.O.C. Securities and Exchange Act, treasury stocks should not be pledged as collateral and is not entitled to dividends before it is reissued.

(d) Pursuant to the R.O.C. Securities and Exchange Act, treasury stocks should be reissued to the employees within five years from the reacquisition date and shares not reissued within the three-year period are to be retired.

(18) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. However, capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(19) Retained earnings

- A. Under the Company's Articles of Incorporation adopted by the shareholders during their meeting, the current year's earnings, if any, shall first be used to pay all taxes and offset accumulated deficit and then 10% of the remaining amount shall be set aside as legal reserve until the amount of legal reserve is equal to the amount of paid-in capital. After the provision or reversal of special reserve, the appropriation of the remaining earnings along with the unappropriated earnings of prior years and current adjustment on unappropriated earnings as distributable retained earnings, and shall be proposed by the Board of Directors and approved by the shareholders, and appropriated in accordance with the proportion of total share amount.
- B. The policy for dividend distribution should reflect factors such as current and future investment environment, fund requirements, domestic and international competition and capital budgets, as well as the benefit of stockholders, share bonus equilibrium, and long-term financial planning etc. It may be paid in cash or in the form of share dividends. Accordingly, at least 10% of the dividends must be paid in the form of cash.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- D. (a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- (b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently.
- (c) As of January 1, 2018, special reserve set aside for the first-time adoption of IFRSs amount to \$131,678. Furthermore, the Company did not reverse special reserve to retained earnings during the three-month periods ended March 31, 2020 and 2019 as a result of the use, disposal or reclassification of related assets. As of March 31, 2020, December 31, 2019 and March 31, 2019, the amount of special reserve set aside for the first-time adoption of IFRSs all amounted to \$131,678.
- E. The appropriations of earnings of 2019 and 2018 as proposed and approved by the Board of Directors and resolved by shareholders on March 18, 2020 and June 12, 2019, respectively, are as follows:

	<u>Year ended December 31, 2019</u>		<u>Year ended December 31, 2018</u>	
	<u>Amount</u>	<u>Dividends per share (in dollars)</u>	<u>Amount</u>	<u>Dividends per share (in dollars)</u>
Legal reserve appropriated	\$ 103,560		\$ 80,759	
Special reserve appropriated	127,212		-	
Reversal of special reserve	-		(31,550)	
Cash dividends	747,164	\$ 3.00	612,239	\$ 2.50

As of review report date, the distribution of 2019 earnings has not been resolved by the shareholders. Information about the appropriation of retained earnings of the Company as proposed by the Board of Directors and resolved by the shareholders' will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

(21) Operating revenue

A. Disaggregation of revenue from contracts with customers

Sales are recognised when control of the products has transferred, being when the products are delivered to the customer. Delivery occurs when the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.

The Group derives revenue from the transfer of goods at a point in time in the following major product lines and also in each reportable operating segment:

	Three-month period ended March 31,	
	2020	2019
Wireless networking products	\$ 6,275,393	\$ 5,297,736
Wired networking products	526,594	1,181,984
	<u>\$ 6,801,987</u>	<u>\$ 6,479,720</u>

B. Contract liabilities

Contract liabilities recognised by the Group as a result of revenue from contracts with customers are as follows:

	March 31, 2020	December 31, 2019	March 31, 2019	January 1, 2019
Sales contract	<u>\$ 167,621</u>	<u>\$ 72,144</u>	<u>\$ 400,300</u>	<u>\$ 214,498</u>

(a) Significant changes in contract liabilities

For the three-month period ended March 31, 2019, the Group's advanced payment from customers for product development is increasing due to the recent application for 5G network technology.

(b) Revenue recognised that was included in the contract liability balance at the beginning of the period

	Three-month period ended March 31,	
	2020	2019
Sales contract	<u>\$ 67,170</u>	<u>\$ 214,226</u>

C. Refund liabilities

Sales revenue was recognised based on contract price net of sales discounts and allowances. The merchandise is often sold with sales discounts and allowances based on aggregate sales over a 12-month period. Accumulated experience is used to estimate and provide for the sales discounts and allowances, using the expected value method, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. A refund liability is recognised for expected sales discounts and allowances payable to customers in relation to sales made until the end of the reporting period. The payment terms for sales are normally 30 to 210 days after delivery. The time between the transfer of promised goods or services to the client and collection of payment does not exceed one year. Therefore, the Group does not adjust the transaction price to reflect the time value of money.

	March 31, 2020	December 31, 2019	March 31, 2019
Refund liabilities	<u>\$ 196,499</u>	<u>\$ 166,421</u>	<u>\$ 179,500</u>

(22) Other income

	Three-month period ended March 31,

Depreciation charges on right-of-use assets	18,874	17,026
	<u>\$ 973,064</u>	<u>\$ 1,016,070</u>

(26) Employee benefit expense

	Three-month period ended March 31,	
	2020	2019
Wages and salaries	\$ 698,524	\$ 713,317
Pension costs	40,483	53,136
Labor and health insurance fees	38,896	26,444
Directors' remuneration	3,685	6,522
Employee compensation cost	-	1,719
Other personnel expenses	35,708	50,021
	<u>\$ 817,296</u>	<u>\$ 851,159</u>

A. According to the Articles of Incorporation, 12%-18% of profit of the current year is distributable as employees' compensation and no higher than 2.5% of profit of the current year is distributable as remuneration to directors. Qualification requirements of employees include the employees of subsidiaries of the company meeting certain specific requirements. If the Company has an accumulated deficit, earnings should be reserved to cover losses. Independent directors did not participate in the abovementioned distribution of directors' remuneration.

B. For the three-month periods ended March 31, 2020 and 2019, employees' compensation was accrued at \$18,096 and \$46,352, respectively; directors' remuneration was accrued at \$1,904 and \$4,648, respectively. The aforementioned amounts were recognised in salary expenses.

For the three-month period ended March 31, 2020, the employees' compensation and directors' remuneration were estimated and accrued based on 14.27% and 1.50% of distributable profit of current year as of the end of reporting period.

The 2019 employees' compensation and directors' remuneration as resolved by the Board of Directors amounted to \$231,275 and \$22,725, respectively and these is no difference with financial statement in 2019. The employees' compensation and directors' remuneration will be distributed in the form of cash.

Information about employees' compensation and directors' remuneration of the Company as resolved at the meeting of Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

(27) Income tax

A. Income tax expense

10. SIGNIFICANT DISASTER LOSS

None.

11. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

None.

12. OTHERS

(1) Capital management

The primary objective of the Group’s capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust dividend payment to shareholders, return capital to shareholders or issue new shares.

(2) Financial instruments

B. Financial risk management policies

- (a) The Group's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activities. The Group identifies measures and manages the aforementioned risks based on the Group's policy and risk appetite.
- (b) The Group has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors must be carried out based on related protocols and internal control procedures. The Group complies with its financial risk management policies at all times.

- (c) To minimise any adverse effects on the financial performance of the Group, derivative financial instruments, such as foreign exchange forward contracts are used to hedge certain exchange rate risk, and interest rate swaps are used to fix variable future cash flows. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments. Information about derivative financial instruments that are used to hedge certain exchange rate risk are provided in Notes 6(2) and (4).

C. Significant financial risks and degrees of financial risks

(a) Market risk

Exchange rate risk

- i. The Group operates internationally and is exposed to exchange rate risk arising from the transactions of the Company and its subsidiaries used in various functional currency, primarily with respect to the USD and EUR. Exchange rate risk arises from future commercial transactions and recognised assets and liabilities.
- ii. The Group has certain foreign currency receivables to be denominated in the same foreign currency with certain foreign currency payables, therefore natural hedge is received. The Group also uses forward contracts to hedge the foreign currency risk on certain items denominated in foreign currencies. Hedge accounting is not applied as they did not qualify for hedge accounting criteria.
- iii. The Group's risk management policy is to hedge anticipated cash flows from annual sales in EUR and annual purchase in USD for the subsequent year.
- iv. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: USD, EUR and RMB). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	March 31, 2020		
	Foreign currency amount (in thousands)	Exchange rate	Book value (NTD)
<u>Financial assets</u>			
<u>Monetary items</u>			
USD:NTD	\$ 332,378	30.25	\$ 10,005,764

USD:RMB	120,495	6.72	809,726

- v. It is not applicable to disclose the exchange gains or losses for each functional currency due to the fact that the functional currencies used by the Group's entities are diverse.
- vi. The total exchange gain (loss), including realised and unrealised arising from significant foreign exchange variation on the monetary items held by the Group for the three-month periods ended March 31, 2020 and 2019 amounted to \$7,967 and \$7,176, respectively.

vii. Analysis of foreign currency market risk arising from significant foreign exchange variation:

		<u>Three-month period ended March 31, 2020</u>

Price risk

- i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. The Group manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's Board of Directors reviews and approves all equity investment decisions.
- ii. The Group's investments in equity and debt securities comprise shares issued by the domestic and foreign companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity and debt securities had increased/decreased by 1% with all other variables held constant, post-tax profit for the three-month periods ended March 31, 2020 and 2019 would have increased/decreased by \$227 and \$5,137, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other comprehensive income would have increased/decreased by \$2,059 and \$3,072, respectively.

Cash flow and fair value interest rate risk

- i. The Group's main interest rate risk arises from short-term borrowings with variable rates, which expose the Group to cash flow interest rate risk. As of March 31, 2020 and 2019, the Group's borrowings at variable rate were mainly denominated in New Taiwan dollars.
- ii. The Group's borrowings are measured at amortised cost. The borrowings are periodically contractually repriced and to that extent are also exposed to the risk of future changes in market interest rates.
- iii. If the borrowing interest rate had increased/decreased by 1% with all other variables held constant, profit, net of tax for the three-month periods ended March 31, 2020 and 2019 would have increased/decreased by \$3,013 and \$5,267, respectively. The main factor is that changes in interest expense result in floating-rate borrowings.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at amortised cost and at fair value through profit or loss.
- ii. Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Credit limits are established for all customers based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Group's internal rating criteria etc. Certain customers' credit risk will also be managed by taking credit enhancing procedures, such as requesting for prepayment or insurance.

- iii. Credit risk from balances with banks and other financial instruments is managed by the Group's treasury in accordance with the Group's policy. The Group only transacts with counterparties approved by the internal control procedures, which are banks and financial institutions with high credit rating.
- iv. The Group adopted experience of historical transactions to judge whether there is any evidence that the credit risk of financial instruments has been significantly increased after initial recognition. If the contract payments were past due over 90 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition. The default occurs when the contract payments are past due over 270 days.
- v. The following indicators are used to determine whether the credit impairment of financial assets has occurred:
 - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganization due to their financial difficulties;
 - (ii) Default.
- vi. The Group classifies customers' accounts receivable in accordance with customer types. The Group applies the simplified approach using provision matrix or loss rate methodology to estimate expected credit loss.
- vii. The Group used the forecast ability of Taiwan Institute of Economic Research report to adjust historical and timely information to assess the default possibility of notes and accounts receivable. As of March 31, 2020, December 31, 2019 and March 31, 2019, the provision matrix are as follows:

March 31, 2020	<u>Without past due</u>	<u>Up to 1-90 days</u>	<u>Up to 91 to 180 days</u>	<u>Up to 181 to 270 days</u>	<u>Over 271 days</u>	<u>Total</u>
<u>Group 1</u>						
Expected loss rate	0.14%	0.32%	0.61%	-	-

Loss allowance	\$ 3,715	\$ 6,208	\$ 1,874	\$ -	\$ -	\$ 11,797
March 31, 2019	Without past due	Up to 1-90 days	Up to 91 to 180 days	Up to 181 to 270 days	Over 271 days	Total
<u>Group 1</u>						
Expected loss rate	0.07%	1.41%	-	-	-	
Total book value	\$ 2,764,970	\$ 662,420	\$ -	\$ -	\$ -	\$ 3,427,390
Loss allowance	\$ 2,001	\$ 9,340	\$ -	\$ -	\$ -	\$ 11,341
<u>Group 2</u>						
Expected loss rate	0.11%	2.11%	-	-	-	
Total book value	\$ 261,474	\$ 35,924	\$ -	\$ -	\$ -	\$ 297,398
Loss allowance	\$ 276	\$ 760	\$ -	\$ -	\$ -	\$ 1,036
Total book value	\$ 3,026,444	\$ 698,344	\$ -	\$ -	\$ -	\$ 3,724,788
Loss allowance	\$ 2,277	\$ 10,100	\$ -	\$ -	\$ -	\$ 12,377

Note: Customer types that are classified based on the Group's credit risk management policy are as follows:

Group 1: The customers have been insured by professional insurance agency.

Group 2: The customers have not been insured by professional insurance agency.

Considering that the accounts receivable are insured, the Group derecognised the impairment loss amounting to \$9,119, \$8,673 and \$5,355 as of March 31, 2020, December 31, 2019 and March 31, 2019, respectively.

viii. Movements in relation to the Group applying the simplified approach to provide loss allowance for accounts receivable are as follows:

	2020	2019
At January 1	\$ 3,124	\$ 12,662
Reversal of impairment loss	-	(5,670)
Effect of exchange rate changes	(31)	30
At March 31	\$ 3,093	\$ 7,022

(c) Liquidity risk

i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining

sufficient headroom on its undrawn committed borrowing facilities at all times so that the Group does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance, compliance with internal balance sheet ratio targets.

- ii. The Group invests surplus cash in interest bearing current accounts, time deposits, money market deposits and marketable securities, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient head-room as determined by the above-mentioned forecasts.
- iii. The Group has the following undrawn borrowing facilities:

	<u>March 31, 2020</u>	<u>December 31, 2019</u>	<u>March 31, 2019</u>
Floating rate:			
Expiring within one year	\$ 8,697,368	\$ 9,238,793	\$ 10,646,118

- iv. The Group's non-derivative financial liabilities were analysed based on the remaining period at the balance sheet date to the contractual maturity date, derivative financial liabilities were analysed based on the fair value on balance sheet date.

Except that the contractual undiscounted cash flows of notes payable, accounts payable, other payables, cross currency swap contracts and forward foreign exchange contracts are approximately equal to its book value and mature within one year, the contractual undiscounted cash flows of remaining financial liabilities are disclosed in the following table:

March 31, 2020	<u>Within 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>Over 5 years</u>
<u>Non-derivative financial liabilities</u>				
Short-term borrowings	\$ 1,507,260	\$ -	\$ -	-
Lease liabilities	78,817	65,104	186,696	83,808
Bonds payable	23,460	23,460	2,354,376	-
December 31, 2019	<u>Within 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>Over 5 years</u>
<u>Non-derivative financial liabilities</u>				
Short-term borrowings	\$ 1,270,559	\$ -	\$ -	-
Lease liabilities	86,909	79,042	192,167	94,980
Bonds payable	23,460	23,460	2,360,224	-
March 31, 2019	<u>Within 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>Over 5 years</u>
<u>Non-derivative financial liabilities</u>				
Short-term borrowings	\$ 2,639,877	\$ -	\$ -	-
Lease liabilities	92,442	73,217	206,317	97,059

- v. The Group did not expect the occurrence timing of cash flow of expiry date analysis would be significantly earlier, or the actual amount would significantly differ.

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in certain derivative instruments is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in convertible corporate bonds and equity investment without active market and investment property is included in Level 3.

B. Financial instruments not measured at fair value

- (a) Except for those listed in the table below, the carrying amounts of cash and cash equivalents, notes receivable, accounts receivable, other receivables, other current assets, short-term borrowings, notes payable, accounts payable, other payables and other current liabilities are approximate to their fair values.

	<u>March 31, 2020</u>			
	<u>Book value</u>	<u>Fair value</u>		
		<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Financial liabilities:				
Lease liabilities (including current portion)	\$ 371,457	\$ -	\$ -	\$ 414,425
Bonds payable	<u>2,300,000</u>	<u>-</u>	<u>2,313,651</u>	<u>-</u>
	<u>\$ 2,671,457</u>	<u>\$ -</u>	<u>\$ 2,313,651</u>	<u>\$ 414,425</u>

	<u>December 31, 2019</u>			
	<u>Book value</u>	<u>Fair value</u>		
		<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Financial liabilities:				
Lease liabilities (including current portion)	\$ 396,978	\$ -	\$ -	\$ 396,978
Bonds payable	<u>2,300,000</u>	<u>-</u>	<u>2,292,044</u>	<u>-</u>
	<u>\$ 2,696,978</u>	<u>\$ -</u>	<u>\$ 2,292,044</u>	<u>\$ 396,978</u>

	<u>March 31, 2019</u>			
	<u>Book value</u>	<u>Fair value</u>		
		<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Financial liabilities:				
Lease liabilities (including current portion)	\$ 400,959	\$ -	\$ -	\$ 455,364

- (b) Lease liability and bonds payable: They are measured at present value, which is calculated based on the cash flow expected to be paid and discounted using a market rate prevailing at balance sheet date.

C. Financial instruments and non-financial instruments measured at fair value

- (a) The related information of natures of the assets and liabilities is as follows:

Liabilities

Recurring fair value measurements

Financial liabilities at fair value through profit or loss

Cross currency swap	\$ -	\$ 2,647	\$ -	\$ 2,647
---------------------	------	----------	------	----------

- (b) The methods and assumptions the Group used to measure fair value are as follows:
- The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	<u>Listed shares</u>	<u>Closed-end fund</u>	<u>Open-end fund</u>	<u>Government bonds</u>	<u>Corporate bonds</u>	<u>Convertible (exchangeable) bond</u>
Market quoted price	Closing price	Closing price	Net asset value	Transaction price	Weighted average quoted price	Closing price

- Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the consolidated balance sheet date (i.e. yield curves on the Taipei Exchange, average commercial paper interest rates quoted from Reuters).

- iii. When assessing non-standard and low-complexity financial instruments, for example, debt instruments without active market, interest rate swap contracts, foreign exchange swap contracts and options, the Group adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.
- iv. For high-complexity financial instruments, the fair value is measured by using self-developed valuation model based on the valuation method and technique widely used within the same industry. The valuation model is normally applied to derivative financial instruments, debt instruments with embedded derivatives or securitised instruments. Certain inputs used in the valuation model are not observable at market, and the Group must make reasonable estimates based on its assumptions. The effect of unobservable inputs to the valuation of financial instruments is provided in Note 12(3) I.
- v. The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Forward exchange contracts are usually valued based on the current forward exchange rate. Structured interest derivative instruments are measured by using appropriate option pricing models (i.e. Black-Scholes model) or other valuation methods, such as Monte Carlo simulation.
- vi. The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk, etc. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.
- vii. The Group takes into account adjustments for credit risks to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Group's credit quality.

D. For the three-month periods ended March 31, 2020 and 2019, there was no transfer between Level 1 and Level 2.

E. The following chart is the movement of Level 3 for the three-month periods ended March 31, 2020 and 2019:

	<u>Convertible bonds</u>	<u>Equity securities</u>	<u>Total</u>
At January 1, 2020	\$ 1,490	\$ 144,009	\$ 145,499
Recorded as unrealised gains (losses) on valuation of investments in equity instruments measured at fair value through profit or loss	(1,011)	-	(1,011)
Recorded as unrealised gains (losses) on valuation of investments in equity instruments measured at fair value through other comprehensive income	-	(54,462)	(54,462)
Effect of exchange rate changes	-	136	136
At March 31, 2020	<u>\$ 479</u>	<u>\$ 89,683</u>	<u>\$ 90,162</u>

	<u>Convertible bonds</u>	<u>Equity securities</u>	<u>Total</u>
At January 1, 2019	\$ 8,709	\$ 91,957	\$ 100,666
Recorded as unrealised gains (losses) on valuation of investments in equity instruments measured at fair value through other comprehensive income	-	(11,331)	(11,331)
Effect of exchange rate changes	-	99	99
At March 31, 2019	<u>\$ 8,709</u>	<u>\$ 80,725</u>	<u>\$ 89,434</u>

F. For the three-month periods ended March 31, 2020 and 2019, there was no transfer into or out from Level 3.

G. Treasury segment is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.

H. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	<u>Fair value at March 31, 2020</u>	<u>Valuation technique</u>	<u>Significant unobservable input</u>	<u>Range (weighted average)</u>	<u>Relationship between inputs and fair value</u>
Non-derivative equity instrument:					
Unlisted stocks	\$ 89,683	Market comparable companies	Discount for lack of marketability	15%~ 67.09%	The higher the discount for lack of marketability, the lower the fair value
Hybrid instrument:					
Convertible bonds	\$ 479	Market comparable companies and binomial model	Volatility	69.64%	The higher the volatility, the higher the fair value

	Fair value at December 31, 2019	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship between inputs and fair value
Non-derivative equity instrument:					
Unlisted stocks	\$ 144,009	Market comparable companies	Discount for lack of marketability	10%~ 54.76%	The higher the discount for lack of marketability, the lower the fair value
Hybrid instrument:					
Convertible bonds	\$ 1,490	Market comparable companies and binomial model	Volatility	38.54%~ 48.54%	The higher the volatility, the higher the fair value
	Fair value at March 31, 2019	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship between inputs and fair value
Non-derivative equity instrument:					
Unlisted stocks	\$ 80,725	Market comparable companies	Discount for lack of marketability	10%~ 54.92%	The higher the discount for lack of marketability, the lower the fair value
Hybrid instrument:					
Convertible bonds	\$ 8,709	Market comparable companies and binomial model	Volatility	31.43%~ 52.65%	The higher the volatility, the higher the fair value

- I. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets and liabilities categorised within Level 3 if the inputs used to valuation models have changed:

	Input	Change	March 31, 2020			
			Recognised in profit or loss		Recognised in other comprehensive income	
			Favourable change	Unfavourable change	Favourable change	Unfavourable change
Financial assets						
Equity instruments	Liquidity	±5%	\$ 2,629	\$ 2,629	\$ 6,131	\$ 6,131
Hybrid instrument	Volatility	±5%	46	46	-	-
			<u>\$ 2,675</u>	<u>\$ 2,675</u>	<u>\$ 6,131</u>	<u>\$ 6,131</u>

	Input	Change	December 31, 2019			
			Recognised in profit or loss		Recognised in other comprehensive income	
			Favourable change	Unfavourable change	Favourable change	Unfavourable change
Financial assets						
Equity instruments	Liquidity	±5%	\$ 2,722	\$ 2,722	\$ 10,521	\$ 10,521

13. SUPPLEMENTARY DISCLOSURES

(1) Significant transactions information

- A. Loans to others: Please refer to table 1.
- B. Provision of endorsements and guarantees to others: Please refer to table 2.
- C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to table 3.
- D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: None.
- E. Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- F. Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- G. Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paid-in capital or more: Please refer to table 4.
- H. Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: Please refer to table 5.
- I. Trading in derivative instruments undertaken during the reporting periods: Please refer to Notes 6(2), 6(4) and 12.
- J. Significant inter-company transactions during the reporting periods: Please refer to table 6.

(2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China) : Please refer to table 7.

(3) Information on investments in Mainland China

- A. Basic information: Please refer to table 8.
- B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: Please refer to tables 1, 2, 4, 5, and 6.

(4) Major shareholders information

Major shareholders information: Please refer to table 9.

14. SEGMENT INFORMATION

(1) General information

Management has determined the reportable operating segments based on the reports reviewed by the Board of Directors that are used to make strategic decisions.

There is no material change in the basis for formation of entities and division of segments in the Group or in the measurement basis for segment information during this period.

(2) Segment information

The segment information provided to the Chief Operating Decision-Maker for the reportable segments is as follows:

For the three-month period ended March 31, 2020:

	<u>Taiwan</u>	<u>Mainland China</u>	<u>Others</u>	<u>Reconciliation and elimination</u>	<u>Total</u>
Revenue from external customers	\$ 6,159,110	\$ 358,751	\$ 284,126	\$ -	\$ 6,801,987
Inter-segment revenue	<u>548,538</u>	<u>2,690,816</u>	<u>-</u>	<u>(3,239,354)</u>	<u>-</u>
Total segment revenue	<u>\$ 6,707,648</u>	<u>\$ 3,049,567</u>	<u>\$ 284,126</u>	<u>(\$ 3,239,354)</u>	<u>\$ 6,801,987</u>
Segment income (loss)	<u>\$ 95,626</u>	<u>(\$ 17,095)</u>	<u>(\$ 47,250)</u>	<u>\$ 72,874</u>	<u>\$ 104,155</u>

For the three-month period ended March 31, 2019:

	<u>Taiwan</u>	<u>Mainland China</u>	<u>Others</u>	<u>Reconciliation and elimination</u>	<u>Total</u>
Revenue from external customers	\$ 4,666,861	\$ 1,543,697	\$ 269,162	\$ -	\$ 6,479,720
Inter-segment revenue	<u>301,178</u>	<u>3,738,704</u>	<u>42,268</u>	<u>(4,082,150)</u>	<u>-</u>
Total segment revenue	<u>\$ 4,968,039</u>	<u>\$ 5,282,401</u>	<u>\$ 311,430</u>	<u>(\$ 4,082,150)</u>	<u>\$ 6,479,720</u>
Segment income (loss)	<u>\$ 251,834</u>	<u>(\$ 65)</u>	<u>\$ 3,663</u>	<u>\$ 15,053</u>	<u>\$ 270,485</u>

(3) Reconciliation for segment income (loss)

Sales between segments are carried out at arm's length transaction. The revenue from external customers reported to the Chief Operating Decision-Maker is measured in a manner consistent with that in the statement of comprehensive income.

Sercomm Corporation and Subsidiaries
Loans to others
Three-month period ended March 31, 2020

Table 1

Expressed in thousands of NTD
(Except as otherwise indicated)

No. (Note 1)	Creditor	Borrower	General ledger account	Is a related party	Maximum outstanding balance during the three- month period ended March 31, 2020	Balance at March 31, 2020	Actual amount drawn down	Interest rate(%)	Nature of loan (Note 4)	Amount of transactions with the borrower	Reason for short- term financing	Collateral		Allowance for bad debt	Limit on loans granted to a single party	Ceiling on total loans granted	Footnote
												Item	Value				
0	The Company	Sernet (Suzhou) Technologies Corporation	Other receivables- related party	Y	\$ 873,020	\$ 853,060	\$ -	4.00	(2)	\$ -	Additional operating capital	\$ -	-	\$ -	\$ 3,773,858	\$ 7,547,715	Note 2(3)

Note 1: The numbers filled in for the loans provided by the Company or subsidiaries are as follows:

- (1)The Company is '0'.
- (2)The subsidiaries are numbered in order starting from '1'.

Note 2: The aggregate amount of loans to others shall not exceed 40% of the Company's net assets based on the latest audited or reviewed financial statements.

The loan limit for each entity depending on the purpose of the loan is as follows:

- (1) Nature of loans is related to business transactions: The amount shall not exceed the higher of the sales or purchases amount to/ from the borrower for the year as of the time of the lending event or for the most recent year.
 - (2) As short-term financing: The amount shall not exceed 20% of the Company's net assets based on the latest audited or reviewed financial statements.
 - (3) Financing between the Company's 100% directly- or indirectly- held overseas investee is not limited to 40% of the Company's net assets based on the latest audited or reviewed financial statements.
- However, total loans shall not exceed 100% net assets. Loans to a single party shall not exceed 50% net assets.

Note 3: The aggregate amount of loans from subsidiaries to others shall not exceed 40% of stockholders' equity as stated in the subsidiary's or the Company's most recent audited or reviewed financial statement, whichever is lower.

The loan limit for each entity depending on the purpose of the loan is as follows:

- (1) Nature of loans is related to business transactions: The amount shall not exceed the higher of the sales or purchases amount to/ from the trading partner for the year as of the time of the lending event or for the most recent year.
 - (2) As short-term financing: The amount shall not exceed 20% of the subsidiary or the Company's net assets based on the latest audited or reviewed financial statements.
 - (3) Financing between the group's investee which is 100% directly- or indirectly- held by the parent company is not limited to the ratio as stated in the preceding paragraph.
- However, total loans shall not exceed 100% net assets as stated in the parent company's most recent audited or reviewed financial statement. Loans to individual investee shall not exceed 50% net assets.

Note 4: (1)Nature of loans is related to business transactions : The trading amounts refer to the business transaction amounts within the recent year between the loaner company and the loanee entity.

- (2)Short-term financing

Sercomm Corporation and Subsidiaries
Provision of endorsements and guarantees to others
Three-month period ended March 31, 2020

Table 2

Expressed in thousands of NTD
(Except as otherwise indicated)

Number (Note 1)	Endorser/ guarantor	Party being endorsed/guaranteed			Maximum outstanding endorsement/ guarantee amount as of March 31, 2020 (Note 4)	Outstanding endorsement/ guarantee amount at March 31, 2020	Actual amount drawn down	Amount of endorsements / guarantees secured with collateral	Ratio of accumulated endorsement/ guarantee amount to net asset value of the endorser/ guarantor company (%)	Ceiling on total amount of endorsements/ guarantees provided (Note 3)	Provision of endorsements/ guarantees by parent company to subsidiary	Provision of endorsements/ guarantees by subsidiary to parent company	Provision of endorsements/ guarantees to the party in Mainland China	Footnote
		Company name	Relationship with the endorser/ guarantor (Note 2)	Limit on endorsements/ guarantees provided for a single party (Note 3)										
0	The Company	DWNet Technology (Suzhou) Co., Ltd.	(2)	\$ 3,773,858	\$ 1,395,180	\$ 1,391,684	\$ 432,152	\$ -	18.44	\$ 7,547,715	Y	N	Y	
0	"	Sernet (Suzhou) Technologies Corporation	(2)	3,773,858	909,900	907,620	-	-	12.03	7,547,715	Y	N	Y	
0	"	Sercomm Russia Limited Liability Company	(2)	3,773,858	15,127	15,127	-	-	0.20	7,547,715	Y	N	N	

Note 1: The numbers filled in for the endorsements/guarantees provided by the Company or subsidiaries are as follows:

- (a) The Company is '0'.
- (b) The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between the endorser/guarantor and the party being endorsed/guaranteed is classified into the following seven categories:

- (a) Having business relationship.
- (b) The endorser/guarantor parent company owns directly more than 50% voting shares of the endorsed/guaranteed subsidiary.
- (c) The endorser/guarantor parent company and its subsidiaries jointly own more than 50% voting shares of the endorsed/guaranteed company.
- (d) The endorsed/guaranteed parent company directly or indirectly owns more than 50% voting shares of the endorser/guarantor subsidiary.
- (e) Mutual guarantee of the trade as required by the construction contract.
- (f) Due to joint venture, each shareholder provides endorsements/guarantees to the endorsed/guaranteed company in proportion to its ownership.
- (g) Joint guarantee of the performance guarantee for pre-sold home sales contract as required under the Consumer Protection Act.

Note 3: The Company's 'Procedures for Provision of Endorsements and Guarantees' are as follows:

- (1) Limit on total endorsements is 50% of the Company's net assets based on the latest audited or reviewed financial statements, and limit on endorsements to a single party is 25%.
- (2) The restriction stated in (1) shall not apply to inter-company loans of funds between foreign companies in which the Company holds, directly or indirectly, 100% of the voting shares. However the endorsement / guarantee amount should not exceed 100% net assets. Endorsements / guarantees provided to individual investees should not exceed 50% net assets.
- (3) The amounts permitted to make in endorsements/guarantees to single subsidiary shall not exceed 50% of the Company's stockholders' equity as stated in its latest financial statement; the total amount shall not exceed 100% of stockholders' equity as stated in its latest financial statement.

Note 4: Fill in the year-to-date maximum outstanding balance of endorsements/guarantees provided as of the reporting period.

Note 1: The numbers filled in for the transaction company in respect of inter-company transactions are as follows:

- (1) Parent company is '0'.
- (2) The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between transaction company and counterparty is classified into the following three categories; fill in the number of category each case belongs to (If transactions between parent company and subsidiaries or between subsidiaries refer to the same transaction, it is not required to disclose twice. For example, if the parent company has already disclosed its transaction with a subsidiary, then the subsidiary is not required to disclose the transaction; for transactions between two subsidiaries, if one of the subsidiaries has disclosed the transaction, then the other is not required to disclose the transaction.):

- (1) Parent company to subsidiary.
- (2) Subsidiary to parent company.
- (3) Subsidiary to subsidiary.

Note 3: Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the middle of year to consolidated total operating revenues for income statement accounts.

Note 4: The sales price to the above related parties was determined through mutual agreement based on the market conditions. The collection period for third party was month-end 90-210 days, while the terms for domestic sales was net 30-75 days. The collection period for overseas sales was net 30-210 days.

Note 5: Only expose the amount of more than \$5,000 transactions.
